1. Why is Faidley's camera dangerous?

Faidley's camera is dangerous because  
its metal. Metal is a very good  
conductor for lightning. So he could  
be electrified.

2. Examine the map of tornado zones in North America. What are two things you know from reading this map?

★ - In the eastern US, there are a lot  
of tornadoes. there are not hardly any in the  
west  
★ - In B.C. there are no hurricanes or tornadoes.  
but instead we have other storms.
