

3. Would you want to be a storm chaser? Why or why not? You might want to answer this question as a cartoonist, using speaking and thinking bubbles.

I wouldn't like to be a storm chaser because I would be too scared and I'm not that interested in storms.

4. Why would the work of storm chasers be important to people living in B.C.?

It would be important to B.C. people because it kills more than 100 people each year. It's also important to B.C. people because their research helps improve weather forecasting and save-storm warnings.

5. Was this easy or hard to read? Explain your answer.

This was easy to read because there were easy words in this story. It was also very easy for me to read because I understood this story and when I understood a story it's easier for me to read.
