Date: _____

1. Tell 4 details of Rudy as a baby and young boy that explain why he has artificial legs.

1. He had a disease called Pterygium.

2. He couldn't smile, chew, or use his hands, but now he can ~~smile~~, but his legs couldn't!

3. They were rare birth defects.

4. He couldn't straighten his leg.

incomplete

2. Using the chart on pages 4 and 5, compare the prosthetic hand of 1668 to one designed in 2001.

The one made in 1668 is pretty rusty and fragile, but the 2001 version looks like brand new, even better than 2006, also because it uses technology.
